RULING ON ENTITLEMENT¹

On September 14, 2022, Jama Dilbeck filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that she received an influenza vaccine on October 8, 2020 and suffered Guillain-Barre Syndrome (“GBS”) thereafter. Petition at 1. Petitioner further alleges that the vaccine was administered within the United States, that she suffered the residual effects of her injury for more than six months, and that she has not received any compensation in the form of an award or settlement for her vaccine-related injury. Petition at 8. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On August 22, 2023, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent has concluded that Petitioner has satisfied the criteria for GBS set forth in the Vaccine Injury Table and the Qualifications and Aids to Interpretation. *Id.* at 8. Respondent further agrees that Petitioner has satisfied the statutory severity requirements of the Vaccine Act. *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
